Los Angeles Man Charged for Selling Fentanyl on Social Media

VENTURA, Calif. – Ventura County District Attorney Erik Nasarenko announced today that Ronald Jelaniwarren Joseph (DOB 04/14/2000), of Woodland Hills, has been charged for selling counterfeit Oxycodone “M-30” pills containing fentanyl to Ventura County residents. Joseph faces six felony counts related to the possession and sale of fentanyl, as well as the possession of a firearm. Special allegations and aggravating factors include the involvement of a large quantity of contraband and a prior strike offense. He pled not guilty to all charges at today’s arraignment.

Ventura County Fentanyl and Overdose Crimes Units (VC FOCUS) detectives discovered that Joseph was allegedly using social media to advertise illicit fentanyl pills. Through undercover operations and surveillance, investigators determined he had an established customer base in Ventura County.

On November 12, 2024, Joseph was arrested in Newbury Park while attempting a narcotics transaction. A search warrant served at his Woodland Hills apartment led to the seizure of over 1,000 counterfeit M-30 pills and a handgun. Joseph, a convicted felon and documented gang member from Los Angeles County, was also found to be on active parole.

Senior Deputy District Attorney Audry Nafziger, a member of VC FOCUS and the Ventura County District Attorney’s Office Major Crimes Narcotics Unit, is prosecuting the case.

Joseph is scheduled to be back in court for an early disposition conference on March 7, 2025, at 1:30 p.m. in courtroom 12 of the Ventura County Superior Court. He is currently out of custody after posting \$100,000 bail.

VC FOCUS is a task force made up of Ventura County regional law enforcement agencies, the Ventura County District Attorney’s Office, the California Highway Patrol, and federal law enforcement partners. The primary mission of this partnership is to combat fentanyl related crimes

and opioid overdoses by targeting the supply chain of individuals and criminal organizations responsible for the sales of these drugs into Ventura County. In addition, the task force works to identify new trends of abuse among the younger population and educate the community at large on the lethal danger of this epidemic.

Fentanyl is an extremely powerful synthetic opioid that is 100 times more potent than morphine and 50 times more potent than heroin. As little as 2 Milligrams of fentanyl is considered to be a lethal dose of this deadly drug. Counterfeit M-30 (Oxycodone) pills are highly abused and often contribute to fatal and non-fatal overdoses within Ventura County. These counterfeit pills are mass produced by drug cartels and sold throughout the United States for large profits. The pills look identical to legitimate medications and are mixed with fentanyl. The United States Drug Enforcement Agency (DEA) estimates that six out of every ten pills seized by law enforcement agencies across the United States are counterfeit and contain fentanyl which make them extremely dangerous to the community.

VC FOCUS has partnered with Ventura County Behavioral Health as an active member of the County Overdose Awareness & Solutions Team (COAST) in a campaign to reduce overdoses and educate the public about the dangers of opioids and other drugs. Comprehensive information can be found at ThinkAgainVC.com.

Case: 2024030729
